

UBER CRAFT

Reclaimed boatwood; Re-imagined

Using beautiful Catalpa wood, painstakingly salvaged from de-commissioned fishing boats, this superb resource has been re-imagined and re-worked in to a spectacular and eco-friendly range of wall and floor coverings capable of transforming any domestic or commercial interior.

UBER CRAFT

The salvaged Catalpa wood is sorted and stacked by size and transported to the factory where it is de-nailed, steamed and kiln dried to re-condition the wood and ensure that it is optimally stable to be cut into components and transformed into new products.

[Bounty]

[Sampan]

UBER CRAFT

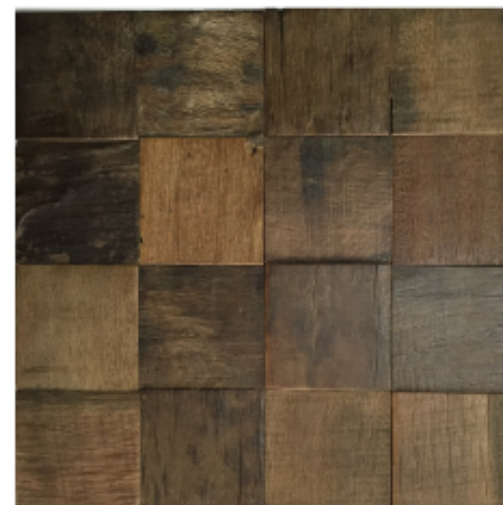

square wall panels

[Cutty Sark]

[Beagle]

[Mayflower]

**Size: mm
10-15x300x300**

[Mary Celeste]

UBER CRAFT

tessellated wall panels

[Kon Tiki]

[La Pinta]

All wall panels are securely glued on to a netted backing, ready for gluing to a dry and pre-levelled surface.

[Reclaimed Flooring]

Coming soon...We are currently developing a range of reclaimed flooring, also produced from this wonderful resource. Please contact us for more information on this or the Wall panels above.
